

Introducing SureDeposit: A Better Alternative to security Deposits.

SureDeposit is based on a simple concept: instead of requiring a full security deposit, residents are offered the option of paying a low one-time non-refundable premium.

Have More Money for Yourself

SureDeposit means your budget goes farther: a bigger apartment, membership in a health club, new furniture... There are literally dozens of better things to do with your money than use it for a security deposit.

One SureDeposit Premium Can Cover a Lifetime

To take advantage of SureDeposit, simply read and complete a Bond Acknowledgment Form when your new lease is approved and pay the one-time non-refundable premium. SureDeposit coverage will begin immediately. With SureDeposit, you only pay once for the life of your residency.

No Anxiety over the Refund

After you pay your last month's rent and honor the other conditions of your lease, you simply move out without any further obligation. If you have not fulfilled your commitments under the lease, you will be required to reimburse the surety company for damages, loss of rent and related expenses.
